CropSure Cropsurf 700 Adjuvant

ACTIVE CONSTITUENTS: 350g/L SOYAL PHOSPHOLIPIDS

350g/L PROPIONIC ACID

Acidifying and Penetrating Surfactant. Reduces Alkaline Hydrolysis of Dimethoate. Assists with uptake of Foliar Fertilisers. Assists in Management of Spray Droplet Size.

IMPORTANT: READ THIS LABEL BEFORE OPENING OR USING THIS PRODUCT

CONTENTS: 1L - 1000L

CropSure Pty Ltd

DIRECTIONS FOR USE

RESTRAINT: DO NOT use with copper products

SITUATION	RATES PER 100L	CRITICAL COMMENTS
Addition to herbicides to improve spreading and penetration. Glyphosate, 2,4-D, MCPA, Metsulfuron.	250 – 500mL	Use high rate on stressed or difficult to control weeds.
Reduction of pH to reduce alkaline hydrolysis. Dimethoate.	100mL	Add to water in spray tank before adding Dimethoate.
To improve uptake of foliar fertilizers.	300mL – 500mL	Tank mixing with other agricultural chemicals may increase the potential for crop damage – check with supplier.
Assistance in droplet size management to partially reduce the number of fine droplets produced from hydraulic nozzles by air and ground.	300 – 500mL	Helps to reduce the number of fine droplets. CropSure Cropsurf 700 Adjuvant will reduce the fine droplets associated with, but not eliminate off-target movement. This is contingent upon good agricultural spraying practice and appropriate nozzle choice. Refer to CropSure Pty Ltd representative for further advice and stewardship.

NOT TO BE USED FOR ANY PURPOSE OR IN ANY OTHER MANNER CONTRARY TO THIS LABEL UNLESS AUTHORISED UNDER APPROPRIATE LEGISLATION.

GENERAL INSTRUCTIONS:

CropSure Cropsurf 700 Adjuvant can be used where the addition of a wetter/spreader or selfemulsifying oil is required or recommended on the agricultural chemical label.

PENETRATION AND WETTER

CropSure Cropsurf 700 Adjuvant is a multipurpose adjuvant which is composed of natural surfactant and penetrants devised from soybean oils. These are combined with propionic acid to produce a penetrant, surfactant, acidifier for use with herbicides, insecticides, fungicides, foliar fertilisers and plant growth regulators. The unique properties of CropSure Cropsurf 700 Adjuvant enhance the uptake of many systemic herbicides, allowing them to effectively penetrate into leaves without causing damage to non-target crop plants.

ACIDIFICATION

CropSure Cropsurf 700 Adjuvant acts as an acidifier which will reduce pH, in most cases to between 4 and 5. This reduces losses due to alkaline hydrolysis and also assists with the uptake of weak acid herbicides.

DROPLET SIZE MANAGEMENT

CropSure Cropsurf 700 Adjuvant will reduce the number of fine droplets produced by flat fan nozzles without increasing the number of coarse spray droplets. CropSure Cropsurf 700 Adjuvant will reduce the fine droplets associated with, but not eliminate off-target movement of the pesticide being used. This is contingent upon good agricultural spraying practice and appropriate nozzle choice. DO NOT use in situations that are conducive to drift. Refer to CropSure Pty Ltd representative for further advice and stewardship.

MIXING

Half fill the spray tank with water and commence agitation. Add the required quantity of CropSure Cropsurf 700 Adjuvant, then add the recommended quantity of herbicide, insecticide or foliar fertilizer. Continue agitation while topping up the tank and during spraying. DO NOT use with copper products.

PROTECTION OF WILDLIFE, FISH, CRUSTACEANS AND ENVIRONMENT:

DANGEROUS TO FISH. DO NOT contaminate streams, rivers or watercourse with the chemical or used containers.

STORAGE AND DISPOSAL:

Store in the closed original container in a dry, cool, well-ventilated area. DO NOT store for prolonged periods in direct sunlight.

Triple rinse empty containers before disposal. Add rinsings to spray tank. DO NOT dispose of undiluted chemicals on-site. If recycling, replace cap and return clean containers to recycler or designated collection point. If not recycling, break, crush, or puncture and deliver empty packaging for appropriate disposal to an approved waste management facility. If an approved waste management facility is not available, bury the empty packaging 500 mm below the surface in a disposal pit specifically marked and set up for this purpose clear of waterways, desirable vegetation and tree roots in compliance with relevant Local, State or Territory government regulations. DO NOT burn empty container or product.

SAFETY DIRECTIONS:

Will damage eyes. Will irritate the skin. Avoid contact with eyes and skin. When using together with other products, consult their label safety directions. When opening the container and preparing the spray wear cotton overalls buttoned to the neck and wrist (or equivalent clothing), elbow-length chemical resistant gloves and face shield. Wash hands after use. After each day's use, wash gloves, face shield and contaminated clothing.

FIRST AID:

If poisoning occurs contact a doctor or Poisons Information Centre. Phone Australia: 13 11 26, New Zealand 0800 764 766. If swallowed, do NOT induce vomiting. If skin contact occurs, remove contaminated clothing and wash skin thoroughly. If in eyes, hold eyes open, flood with water for at least 15 minutes and see a doctor.

SAFETY DATA SHEET:

Additional information is listed in the Safety Data Sheet (SDS) which is available from the supplier.

CONDITIONS OF SALE

CropSure Pty Ltd shall not be liable for any loss, injury, damage or death whether consequential or otherwise, whatsoever or whosoever arising whether through negligence or otherwise, in connection with the sale, supply, use or application of this product, except for any provisions or rights under the Australian Consumer Law which cannot be excluded. The supply of this product is on the express condition that the purchaser does not rely on CropSure Pty Ltd skill of judgement in the purchasing or using the same and every person using this product does so at their own risk absolutely. The Buyer and user assume all risk of use and/or handling and/or storage of this material when such use and/or handling and/or storage is contrary to label instructions. This product is designed to be only used according with the label directions.

APVMA APPROVAL NO: 90191/138585

BATCH NO:

DATE OF MANUFACTURE:

Harmful if swallowed. Toxic in contact with skin. Causes severe skin burns and eye damage. May cause respiratory irritation. Keep or store away from combustible materials. Do not breathe fumes, mists, vapours or spray. Do not get in eyes, on skin, or on clothing. Wash contacted areas thoroughly after handling. Do not eat, drink or smoke when using this product. Wear protective gloves, protective clothing and eye or face protection. Immediately call a POISON CENTRE or doctor/physician. Remove all contaminated clothing immediately. Wash contaminated clothing before reuse. IF SWALLOWED: Call a POISON CENTRE or doctor if you feel unwell. IF SWALLOWED: Rinse mouth. Do NOT induce vomiting. IF ON SKIN: Wash with plenty of soap and water. IF INHALED: Remove victim to fresh air and keep comfortable for breathing. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. In case of fire: Use carbon dioxide, dry chemical, foam, water fog, to extinguish. Protect from sunlight. Store in a dry place. Store in a closed container. Store in a well-ventilated place. Keep cool. Dispose of contents and containers as specified on the registered label.
